Western Equine Encephalitis

Malaria

Eastern Equine Encephalitis

La Crosse Encephalitis

Dengue Fever

Rift Valley Fever

Don't be Prey; Protect Yourself!

-  Use EPA-registered insect repellents when outdoors.
-  Remove all standing water; it breeds mosquitoes.
-  Ensure windows and doors have screens and are sealed tight.
-  Cover up - the more clothes you have on, the fewer bites you'll get.
